

Job Title: Quoting/RF – Electrical Engineer
Department: Engineering
Location: Tamarac, FL & Warrenville, IL

We are seeking a dependable and knowledgeable **QUOTING/RF – ELECTRICAL ENGINEER** for our manufacturing plants located in Tamarac, FL and Warrenville, IL.

Responsibilities:

Assists in the preparation of quotes by gathering relevant information from the Sales team. Identifies labor, material, and time requirements by studying proposals, blueprints, specifications, historical data, time studies, and related documents. Continuous communication with production floor to help interpret and understand the company's capabilities and customers' needs. Specializes in electrical testing and standards, including Radio Frequency (RF). Develops thorough knowledge of custom manufacturing with cabling, wiring, prototyping, molding, mechanical builds, etc. Assist in ECNs, BOM entry, quotes and creating SOPs and other documentation.

Qualifications:

- Bachelor's Degree in Electrical Engineering from an accredited college or university; 2-3 years of experience in a related field.
- In lieu of a 4-year degree, a Technical degree in Electronics with a minimum of 3-4 years of experience in related field will be considered.
- A minimum of one year Electronics Manufacturing (connectors, soldering, cabling, etc.) experience is required.
- Experience with GD&T and interpreting drawings.
- Proficiency with computer software programs (Microsoft, AutoCAD) is required. Previous experience with MRP/ERP systems a plus.
- Experience with IPC standards is required. Knowledge of Military/DoD specifications a plus.
- Thorough understanding of the quoting process and setting financial targets for Gross Profits.
- Detail-oriented. Ability to work independently, multi task, and prioritize tasks with strict deadline.
- Good customer service/communication skills and flexibility for handling a wide range of activities.
